PROFESSIONAL SUMMARY

Full-Stack Web Developer skilled in building scalable, responsive, and user-centric web applications using modern JavaScript frameworks. Experienced across the MEAN and PERN stacks through structured training, hands-on labs, and real project development. Strong problem-solving and critical-thinking abilities with broad interest in front-end and backend systems.

EXPERIENCE

React Frontend Web Developer

2025 – July 2026

Digital Egypt Pioneers Initiative (DEPI) - Software Development Track

- Selected for Egypt's national digital upskilling initiative, specializing in React frontend development.
- Built React + TypeScript applications following industry code style, patterns, and best practices.
- Implemented version control workflows using Git and GitHub across collaborative projects.
- Integrated backend services via NodeJS + Express; applied containerization basics with Docker and Kubernetes.
- Delivered a capstone project combining React and NodeJS into a real-world full-stack web application.

Full-Stack Web Development Intern (MEAN Stack)

Summer 2025 (1 Month)

National Telecommunication Institute (NTI)

- Built full-stack applications using Angular, Node.js, Express, and MongoDB.
- Developed and consumed REST APIs connected to dynamic front-end components.
- Applied backend routing, middleware, and MVC architecture patterns.
- Practiced structured team development workflows and coding standards.

Full-Stack Engineer Program (PERN Stack)

2024 – 2025 (1 Year)

Codecademy

- Completed hands-on labs in PostgreSQL, Express.js, React.js, and Node.js over 12 months.
- Built REST APIs, authentication flows, and full interactive UI components.
- Strengthened debugging, state management with Redux, and application architecture planning.
- Delivered multiple practical projects aligned with real industry requirements.

PROJECTS

Personal Portfolio Website

ab812x.github.io/portfolio

- Built and deployed a responsive portfolio using HTML, Tailwind CSS, and JavaScript.
- Implemented glassmorphism UI patterns, mobile-first design, and CSS-only marquee animations.

Jammming (Music Search & Playlist App)

github.com/ab812x/jammming

- Integrated Spotify Web API with OAuth 2.0 for real-time track search and playlist management.
- Built with React v18 hooks for dynamic state-driven UI and playlist persistence.

Mixed Messages (JavaScript CLI App) *github.com/ab812x/mixedMessages*

- Developed a Node.js CLI tool that algorithmically generates unique messages from modular data arrays.

EDUCATION & CERTIFICATIONS

Bachelor's Student, Faculty of Engineering *2022 – Present*

Zagazig University

Full-Stack Engineer Career Path *Issued Jan 2026*

Codecademy

- **Skills:** Redux.js, REST APIs, HTML, CSS, React.js, Express.js, Node.js, Bootstrap, JavaScript, Problem Solving

MEAN-Stack Web Development *Issued Sep 2025*

National Telecommunication Institute (NTI)

- **Skills:** Redux.js, REST APIs, HTML, CSS, React.js, AngularJS, Angular, Express.js, Node.js, MongoDB, Bootstrap, Swagger API, JavaScript

TECHNICAL SKILLS

Front-End:	HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Responsive Design, Component Architecture, Tailwind CSS, Bootstrap
Back-End:	Node.js, Express.js, REST APIs, Authentication & Authorization, Middleware
Databases:	MongoDB, PostgreSQL, JSON-based Storage, Data Modeling
Tools & Practices:	Git, GitHub, NPM, Docker (basics), Kubernetes (basics), Linux, Debugging, Testing Fundamentals, Deployment Essentials
Soft Skills:	Problem Solving, Critical Thinking, Clean Code, Fast Learning, Adaptability
Languages:	Arabic (Native) | English (C1)
